([ikc.de.eglantier.delft](https://www.instagram.com/ikc.de.eglantier.delft/))?

Or are you friends with us on Facebook (IKC De
Eglantier Voorhof)?

We post weekly about school, special events and fun facts.

Notifications

Daycare

Nursery

The nursery has started with the unit "Autumn". They will be engaged in autumn activities in the coming weeks.

Reception hall

The daycare hall is currently transformed into a beautiful forest as we work on the unit 'Autumn'. We want to involve the hall in our unit each time, so the hall will always change into a different environment appropriate to the unit.

Visit Mondriaan College

Wednesday, September 27th, two classes from the ROC Mondriaan of the training GPM 4 (the subject combi functionalist) visited us. What is it like to work at an IKC and what do you have to do? Daan and Tessa welcomed the students and by means of a powerpoint Daan explained what he does at the IKC. The students could ask questions and take a look at the daycare and education. It was very nice to receive the students.

Start autumn holidays

The autumn holidays are almost starting! The BSO (after school care) is just about ready with preparations for a week of "Taste and Discover Your Crazy!". We are creating our own laboratory and holding a new opening each day. In which a professor will open the day and take the children through that

day. Also, Sport4kids will visit again one morning and we have arranged a workshop by Mad Science. We are looking forward to it! Hopefully you too.

Education

Repetition: wanted

We have already had some enthusiastic responses from parents, but not enough yet. Therefore, we are repeating this call.

In December, we will be working with wood. If you are currently doing odd jobs and have wood to spare, we would love to hear from you.

We also need help from handy parents who can do preparatory work at the end of November. For example, cutting the wood into small pieces.

Can you help? Please contact:

Miss Eveline : e.defijter@librijn.nl

Miss Els: e.harpmann@librijn.nl

Working week group 8

The 45 children from group 8 enjoyed a great working week last week. Contributing to this was the good atmosphere and the fun, varied programme. For four days the children were in Bennekom where they played, learned, cycled and laughed. A film of the whole event is in the making and will be shown on Thursday evening, 11th of October, to the group 8 children and their parents. You can see a preview on YouTube:

<https://youtu.be/Ra6ED79D3KY?si=BlhNvzVbs1hCtrMO>

De Betovering

De Betovering is an international arts festival for young people (children up to 12 years old). During the autumn holidays (from Friday 13 to Saturday 21 October 2023), The Hague will be under the spell of De Betovering. There will be theatre and dance performances, films, music, workshops and street theatre. These are spread across 60 different locations in The Hague. For more information, please visit the website:

www.debetovering.nl

Volunteer

For the past few years, the school has had a volunteer who did chores in and around the school. Not only were we fond of this volunteer, but we were very happy with all he did for us. Changing a light bulb, hanging a hook, fixing a toilet bowl or painting a wall. We are now missing a handy (wo)man. If you know someone or if you are handy yourself and have time to come and help us during the week, please let us know.

You can send an email to: directie@eglantierdelft.nl

School photographer

Friday, 3th of November, the school photographer will come. All siblings attending our school will be photographed together during school hours. We will arrange this. If you would like your other children, who are not at our school, to be photographed together as well, please do so before school from 7.30 am. You will receive more information after the autumn holidays.

IKC guide and IKC calendar

At the beginning of the school year, you received the IKC calendar. You can now also find it on the website, as well as the IKC guide.

Mother Tongue Reading and Children's Book Week

Last Wednesday, we did Mother Tongue reading in kindergarten and groups 3, 3/4 and 4. We had a huge number of parents and grandparents visiting to read aloud in their mother tongue language spoken at home. The children were divided into small groups and read aloud in as many as 18 different languages.

Reading aloud is very important for the language development of (young) children. They develop their vocabulary and sentence structure this way. It also trains their listening skills and increases their pleasure in listening to and later reading books themselves. We would therefore like to thank everyone who came to read aloud and we hope to see you again next time.

Following this, we will open Children's Book Week on Monday, Oct. 9. DOK also has a fun program during Children's Book Week, which lasts from October 4 to 15. Through the link below you can view this program: You can view this programme via the link below:

Weekend of Science

Hands-on experimenten bij IHE Delft

LEUKE ACTIVITEITEN VOOR IEDEREEN

Beste leerling,

Ben jij nieuwsgierig? En vindt jij het leuk om met water te experimenteren? Tijdens het Weekend van de Wetenschap nodigt de IHE Instituut voor Water Educatie Delft je uit. Neem je ouders, verzorgers of grootouders mee en ontmoet onze water wetenschappers, doe proefjes en leer meer over water. Er zijn tal van activiteiten waar je aan kan deelnemen:

Bouw je eigen aquifer

Maak je tuin waterslim

Breng je eigen monster

Reinig vuil water met behulp
van filtratie

7 Oktober 2023
10:00– 16:00 CEST

IHE Delft
Westvest 7, 2611 AX Delft
– tegenover het NS
station

en meer!

Voor meer informatie ga naar [Weekend van der Wetenschap](#) en bezoek onze [website](#).

Tot ziens

IHE
DELFT
