## New Students

Name	Group
Carmen	gr. B
Silas	gr. B

### Family announcements

Hurray! Zahra from group 3 has a little brother. His name is Amir Zayn.  
Naoufal and Sami have a sister. She is called Amira.  
Congratulations to all.

## Notifications

### Daycare

#### Spring holiday

The BSO and the KDV are busy making and thinking of fun activities for the spring holiday. We are really looking forward to it! We already have a theme, but we will keep it a secret for a while :)

#### BSO Boomhommels

Femke returned from her maternity leave on Monday 24 January and started at BSO Boomhommels. She is working together with Jill. We are happy that Femke is back!

#### KDV

At the day care centre we are currently busy with the reading days! We do not only have reading books, but also a beautiful picture and cuddly toy to make the story even more fun for the children.

## Education

**NLDOET**

### NL-doet - day

On 11 and 12 March, it is NL-doet day again.

The Oranje Fonds is organising NLdoet again on 11 and 12 March, together with thousands of social organisations in the country; the largest volunteer activity in the Netherlands. NLdoet puts volunteer work in the spotlight and invites everyone to spend a day making a

difference!

At De Eglantier we also want to work with volunteers on this day to do 1000 and one odd jobs to make the school look good again. The activities will mainly take place outside, so it is safe.

Who can help us? Parents of pupils of course, but also people in the neighbourhood of the school!

We have all kinds of fun jobs!

- Painting lines in the schoolyard
- repair bikes, scooters and unicycles
- Add a barefoot path
- repair insect hotel
- repair mosaic board
- placing posts for sunscreen and fence posts
- distribute wood chips
- drive to Avalex with stuff

Who can help us on this Saturday? Even an hour of help is very nice!

You can mail your application to [y.kaijer@eglantierdelft.nl](mailto:y.kaijer@eglantierdelft.nl)

### Past weeks

As you have noticed, the past few weeks have been exciting. Many classes at home in quarantine. Or the classes were there, but had only a few children. Many children had a positive test result, but also parents, teachers, teaching assistants, etc. These are still exciting times, especially now with the easing of restrictions.

We would therefore like to emphasise the following: if you

are waiting for the results of a PCR test, you must remain in quarantine until you have the results. If the result is negative, the child can go back to school.

Also, be on the safe side. If you have been in contact with a person who tested positive, take a (self-) test. Even if you have no symptoms (yet).

At the moment, we notice that many of the positives tested have other symptoms aside from just a cold, cough, sore throat, no smell/no taste. Many children who tested positive have symptoms like fatigue, headache, fever, sometimes abdominal pain. So be alert. Better one test too many than one too few.

### Reading

Reading to your children is very important for their (language) development. We hereby send you some tips and tricks!

<https://youtu.be/1TvfYNWNFhA>

Consistency is key when it comes to creating a reading ritual. Choose a fixed time, for example after dinner or before going to sleep, and choose a place where you can sit together.

Make sure children can respond to the story and let them actively participate by pointing to pictures or imitating sounds. Young children don't mind reading the same book over and over again. They always discover something new.

Even if your child can already read by himself, it is still fun and very important to read to him. In this case, you could also choose to take turns, reading one page each.

The most important thing is to create rituals around reading that children enjoy! Moments that allow you to spend quality time together.

### Wanted

Group 3, 3/4 and 4 are looking for scraps of wool to weave with. Do you have anything? Your child can hand it in to the teacher.

### Holiday schedule

On our website you will find not only this school year's timetable but also the timetable for the school year 2022-2023.

You can find it here:

<https://eglantierdelft.nl/integraal-kindcentrum/openingstijden>

### Judo

The groups 3 to 8 have started with Judo lessons during gym class. All groups get 4 lessons.

Judo provides a good build up of the general motor skills. There are many crossed movement patterns that require communication between the left and

right hemisphere of the brain. Think of the left and right execution of techniques. Keeping balance and developing speed are also part of this. One of the unique aspects of Judo training is the respect for others that is given and demanded in the judo hall. Gradually, through Judo, this respect grows towards

Schooljudo.nl

an improvement in self-awareness and discipline.

These Judo classes have been made possible by Jeugdeducatiefonds.

The kindergarden will also start these lessons soon.

### Tray from the Christmas decorations

Your child made a Christmas decoration at school before the Christmas holidays. Please return the tray to school, so we can use it next year to make new Christmas decorations. This saves money which we can use for other fun and useful things for the children and it is also good for the environment.

### NOS in English

Hello Eglantier community,

I am Sandra Rodrigues, the English and IPC teacher from groups 7,  $\frac{7}{8}$  and 8 at Eglantier.

I am from Brazil and I have been living in the Netherlands since December 2019.

December 2019! Life without corona, do you remember that time of our lives?

I remember that I arrived here looking forward to knowing the country, meeting new people and of course learning the Dutch language. But then, after two

months, lockdown.

Actually, several lockdowns.

Then, how do we make friends?

How do we know what's happening in the country if we

can't understand the news on TV? (hey, you can start

watching the Jeugdjournaal!)

How many times do we listen to this advice right?

I know Jeugdjournaal is great but if you know nothing about the language, it's very difficult to understand what is really happening.

Then I discovered a Facebook group called [NOS in English](#), where a group of students at Utrecht University College has been working hard to translate the news published by the NOS. The students emphasise again and again that they're not professional translators and that it started as a nice gesture to fellow UCU students who don't speak Dutch.

It was a great start for me and I still check their translations every day.

Hope this tip can be useful for you too.

Carpe diem!

## Vrienden van De Eglantier

Are you curious about the income and expenditure of the Vrienden van De Eglantier? You can view them here:

<https://eglantierdelft.nl/integraal-kindcentrum/vrienden-van-de-eglantier>

## Delftpas

Do you have a Delftpas? It is valid until 28 February 2022. If you want to use your Delftpas again after this date, you have to renew it on time. Please note: Your Delftpas has a certain credit balance. Due to the lockdown, you could not use your credit everywhere. This credit will therefore remain valid until 1 March 2023. You will have to renew your Delftpas to use this credit again. For more information, please visit this website: <https://www.delft.nl/vrije-tijd/delftpas> Information on school fees through the Delftpas can be found here: <https://www.delft.nl/vrije-tijd/delftpas/schoolkosten-delftpas>

### Delft municipality narrows Voorhofdreef

What a big job it is going to be, narrowing Voorhofdreef. You must have noticed it last week. First 4 weeks on one side, then 4 weeks on the other. This will cause a lot of traffic problems at our school.

We would like to ask you as much as possible to bring your child to school on foot or by bike. If

you do come by car, please park it in the parking places. You know that we have almost no parking possibilities in front of the school. Please do not drive into the Roland Holstlaan. So our children can cross safely. We count on your cooperation.

## Children's Gardens

At a children's garden, children get to know more about nature and our food. 1,5 hours a week, from April to October. Gardening is something you do with your head, heart and hands. What a great experience it is to complete the entire process from sowing to harvesting, together with other children. And of course you want to taste those home-grown carrots and radishes. There is no better place than a kitchen garden to start your voyage of discovery. Without earthworms there is no loose soil to plant roots and without bees no pumpkin! Besides nature education, we organise many more fun activities, such as herb

butter making, pizza baking and a lantern hike to end the season. Enough for unforgettable afternoons at the garden from April to November. For more information and registration, please visit [www.kindertuinendelft.nl](http://www.kindertuinendelft.nl).

Maak kennis met de natuur en ons voedsel.  
1.5 uur per week voor kinderen van 7 t/m 12 jaar.  
Inschrijven voor 31 maart

Info/aanmelden:  
[www.kindertuinendelft.nl](http://www.kindertuinendelft.nl)

**Meld je nu  
aan voor een  
tuintje!**

Je krijgt een eigen stukje grond en leert van alles over de natuur. Zelf groente en bloemen zaaien, verzorgen en onbespoten oogst mee naar huis nemen. Verder zijn er allerlei leuke activiteiten die met tuinieren te maken hebben.

Zit je op de basisschool in groep 4 t/m 8 en lijkt het je leuk om van april tot oktober na schooltijd 1½ uur op de tuin te komen? Het kost €55 per seizoen. Kijk welke van de 4 tuinen voor jou dichtbij is en geef je op via de website, voor 30 maart! [www.kindertuinendelft.nl](http://www.kindertuinendelft.nl)
