Daycare

Summer holiday BSO

The BSO looks back on a fantastic summer holiday. The children have enjoyed it. We went to the water playground. We went to Scheveningen for the day. There was a bouncy castle on location. In short, a great summer holiday.

New teacher Cherryl

Before the holidays teacher Cherryl started working with us. She is currently following a training within our organisation and is excited to come and learn with us in the playgroup and the after school care Weidehommels. Welcome Ms. Cherryl!

Start playgroup

Just as with primary school, the playgroup is also starting again after the summer holidays.

We would like to point out to parents that you should bring your children between 08:15 and 08:30. If you would like to bring your child later, please let us know in advance.

Daycare

During the summer holiday, the daycare centre put together an activity programme focusing on all kinds of summer activities. The children really enjoyed themselves. The daycare staff are busy preparing for the autumn theme.

Education

Start of the new school year

We are already one week into the new school year. We hope that you and your child(ren) have had a nice and healthy holiday. We are happy to see many new faces at our school. Especially for

the new children it is an exciting time. Together we are going to make this a fun and educational year

It is important to arrive on time for school.

Arriving on time

The doors to the kindergarten building (group 1/2) open at 8.15 am. Please say goodbye to your child by the coloured gate. The children enter the schoolyard/school alone. A teacher/educational assistant will be standing outside to help guide the children. All children wash their hands immediately on arrival. The school day starts at 8.30am, so please make sure your child is at school on time. It is nice if we can all start the day on time.

Groups 3 to 8 can also enter their school buildings from 8.15am. The first bell will ring at that time. By the time the second bell rings, at 8.30am, your child should be in their classroom. This also applies to children who start with PE. Classes there also start at 8.30 am. Please consider the time your child needs to change into their PE clothes.

It is not good for the children and the teachers if lessons are constantly interrupted by latecomers.

Gruit

As a school we like to stimulate healthy behaviour. Therefore we ask that your child has a fruit or vegetable snack with them for their morning break. In the previous school years this was 3 mornings a week. As of this school year, it is every morning. This way there is no more confusion about which days to bring a fruit or vegetable snack. Moreover, we are also able to stimulate healthy eating even better. Please make sure that your child (especially younger children) can easily eat this themselves (e.g. an orange with the peel already removed, an apple cut into pieces). The teacher does not have time to peel oranges, apples, etc. for every child.

Often we see that children have fruit and a biscuit with them. Please only give them fruit/vegetables for the morning snack, then it is clear to everyone.

PE

Good fitting gym shoes with a firm sole (no black ones) are very important for growing children.

For kindergarteners who have PE every day, plimsole shoes or a shoe with Velcro is very handy (no laces). We leave the kindergarteners shoes at school. They do not need a PE outfit. Please note that the kindergarteners will also often do their PE

lessons outside. It is nice if your child has well-fitted shoes on which he/she can easily walk, run, etc. in.

For safety and hygiene reasons, children from group 3 onwards should wear PE clothes during their lessons: a sports shirt and shorts or a leotard. The children should bring these clothes to school on PE days. Long hair should be tied back and jewellery should be removed.

Calendar

Your child has received the year calendar this week. One calendar per family has been distributed. If you are separated and both need a calendar, you can ask for one from Miss Najijuf Rahieda or your group teacher.

Lice control

After every holiday, a group of parents checks the hair of the children for head lice. In addition, it is recommended that you regularly check your child's hair yourself, so that we can prevent a lice infestation. If you find lice or nits in your child's hair, please take appropriate measures. At the pharmacy or chemist you can find effective remedies and also combing the hair thoroughly every day with a lice comb is very effective. Please also inform your child's teacher.

Smartphones/ smartwatches

We see that more and more children bring a smartphone and/or smartwatch to school. We understand that times are changing and that these items are becoming more and more part of the daily routine. We also understand that it is sometimes useful to be able to contact your child if, for

example, he/she goes to play with a friend after school or if your child goes to school on his/her own, so that he/she can send an appt when he/she arrives at school.

We would like to remind you and the children that smartphones and smartwatches must be switched off during school hours (8.15 - 15.00). Please discuss this with your child as well.

Start of TSO

The new school year has started and so has the TSO (between school care). If you still want to sign your child up for TSO, please send an email to n.sheikholeslam@librijn.nl. On Tuesday 29th of August the first collection will take place.

Occasional stay January - June 2022

At our school you can fill in a fixed contract for the stay over. Children also stay over incidentally. The costs for this are 3 euros per time. The parents who have

made use of this contract last January until June 2022 have been informed about the payment. We kindly request you to pay these costs as soon as possible.

Safe traffic situation around the school

We would like to have a safe traffic situation around the school. The intention is that children are brought to school on foot as much as possible or, if they live further away, on their bicycles. If you want or need to come by car, we ask you to park in the designated parking spaces. There is also a car park at Roland Holstlaan where there is always space. Cars parked "just" on the crossing by the RH-building lead to a confusing and dangerous traffic situation. This is also regularly checked by the police.

We would also like to remind you that since a while for the Antoon Coolenlaan there is a no-entry zone on Mon-Fri 08:15 - 08:45 and 14:45 - 15:15, to improve the safety of children who come to the main building on foot or by bike. The municipality has conducted an investigation into this and it appears that it is always very busy and therefore unsafe.

We can all make sure that every child can get to school and back home safely by obeying the traffic rules. You will help us, won't you? Thank you in advance!
